Overview

This course is designed for you if you want to develop and extend your digital skills to prepare for employment for different roles in the digital and creative industries, such as software and programming, network support and digital design.

The qualification is also designed for job roles in other industries where specific digital skills are required, such as finance, marketing and machining and manufacturing.

This course includes a mandatory unit along with optional units that relate directly to the skills, knowledge and behaviours expected by employers and covers a wide range and use of different digital technologies, systems and software.

What you'll learn

On this course, you will learn:

- Presentation Software
- Spreadsheet Software
- Word Processing Software

- Digital Skills Career Progression

Assessments / Exams

You will be assessed through exams, coursework, a portfolio of evidence, presentations and group work.

Entry requirements

There are no specific entry requirements, however, the completion of a Level 1 Essential Digital Skills qualification is preferred.

What this course leads to

On completion of this course, you will be able to progress into IT and Digital pathways.
