Overview

Looking to update and improve your electrical knowledge to ensure you're compliant with the latest industry standards?

This 18th Edition course is aimed at practicing electricians and electrical contractors. The aim of this Electrical training course is to gain familiarity with the layout, content and application of the 18th Edition Regulations. It is intended to ensure that on completion of this course, you are conversant with the format, content and the application of the Requirements for Electrical Installations.

This 3-day course has start dates every month from February 2024 to June 2024, enabling you to fit your studies around your current work commitments.

What you'll learn

On this course, you will learn:

- Scope, object and fundamental principles
- Definitions
- Assessment of general characteristics
- Protection for safety
- Selection and erection of equipment
- Inspection and testing
- Special installations or locations
- Appendices

Assessments / Exams

You will be assessed through an online multiple-choice exam.

Entry requirements

You'll need to have completed a Level 2 Electrical course or have relevant trade experience.

What this course leads to

On completion of this course, you will be able to progress onto further Electrical qualifications, such as Inspection and Testing.
