Overview

If you want to train as a professional plumber, this course will give you a great level of basic knowledge.

You'll also get to study in our spacious and industry-standard Plumbing Academy.

What you'll learn

The course will cover:

- Working safely in plumbing

- Key plumbing principles
- Common plumbing processes
- Cold water systems
- Domestic hot water systems
- Sanitation systems
- Central heating systems
- Electrical supply
- Environmental awareness
- Effective working relationships

Assessments / Exams

You'll do online tests at the end of each unit of study.

At the end of the course there's a final practical assessment - a 5-day project to install a bathroom suite and hot & cold water system. Your mark on this assessment will go towards your final grade.

A typical week

Every week you'll be adding to your portfolio of work by completing practical tasks that show your skills.

Entry requirements

This course is for school leavers and adult students.

16-18: You will need to have GCSEs in English, Maths, Science and one other subject at Grade 4 or above.

Adult 19+: You will need to have a minimum of Level 1 in English and Maths.

Our teaching staff

You'll learn from expert tutors who've all worked in the industry and have extensive knowledge.

What this course leads to

On successful completion of this course, you will be able to go on to study at Level 3. Adults 19+ will need to also complete year 2 of the programme to gain the full qualification.

Alternatively, you can find work in the trade and work towards your NVQ in Plumbing at Level 2.
