Overview

This course is designed for site supervisors and assistant site managers working in the construction industry and is a great option if you're looking to develop your skills, knowledge and understanding in order to progress into a construction site manager role.

You'll develop the tools and knowledge to plan and programme projects, liaise with stakeholders, and oversee small to medium construction projects safely and efficiently.

You'll be taught in the classroom by industry-experienced professionals from the Construction Management industry.

This course includes student membership of the Chartered Institute of Building, and you can also gain the Academically Qualified Person's Card (AQP Card).

What you'll learn

You will study a range of key construction-related topics such as:

- Contractual and legal responsibilities
- Managing the quality and sustainability of construction works
- Managing health, safety, and wellbeing
- Project planning, control, monitoring, and risk
- Managing people and organisation of a construction site
- Project resourcing and cost management
- Managing the technology of modern and traditional construction work

You'll also have access to the CIOB Moodle website, which offers a range of online study materials, free membership to the CIOB Novus local hub, use of the CIOB portal for CPD and the use of their Library.

Assessments / Exams

You will be continuously assessed throughout your studies. This includes written assignments, report writing, and presentations.

Entry requirements

This course is ideal for experienced site-based supervisors or assistant managers with 3 years construction experience who wish to improve their knowledge, skills, and progress further in their management roles.

To join this course you'll need to have Level 2 in Maths and English.

What this course leads to

On successful completion of this course you will be awarded the CIOB Level 4 Certificate in Site Management.

You'll be able to progress to the Level 4 Diploma in Site Management, which will provide the next step towards the CIOB Level 6 Chartered Management Programme (MCIOB) if you choose to take your studies further.

You'll be academically qualified and have gained a CSCS card, after passing the applicable CSCS tests.

Completion of this course could also support you towards promotion to more senior management roles in the construction industry.
