Overview

This course is designed for students wanting to progress into film and other related industries.

The breadth of optional content in this qualification allows you to widen your opportunities and to progress to several different higher education courses. You will undertake a Project and learn industry based skills, that will enable you to develop technical skills in film production.

What you'll learn

On this course, you will learn:

- **Skills Development:** you will explore key fundamentals of media practice, learning how skills are integrated and connect to generate developed outcomes
- **Creative Project:** you will apply the skills you have been developing throughout the programme to a creative project that demonstrates your ability to self-direct a response to a brief, from inception to completed product

Assessments / Exams

You will be assessed through a combination of coursework and portfolio work.

A typical week

Three days a week on campus, working in a designated film studio and classrooms on-site, with some online learning.

Entry requirements

You will need to have GCSE Maths, English Language and two additional subjects at grade 4 (C) or above.

As part of the application process you will also be asked to explain why you want to study this course, so that we can ensure any course offer made aligns to your career goals.

What this course leads to

On completion of the National Foundation Diploma (1 year), you will be able to progress to the National Extended Diploma (2nd year).

The primary focus of the Level 3 Film Pathway is to progress into employment and higher education across a range of roles within the industry. Jobs available in these areas include:

- Video Editor
- Film Director
- Photographer
- Film Producer
- Lighting Technician
- Runner
- Location Manager
- Programme Researcher
