

Level 3

Plumbing and Domestic Heating Technician

Apprenticeship

				
Duration	Location	Starting	Age	Careers
175 weeks	Rush Green Campus	Flexible dates	Apprenticeships	Plumbing

How do apprenticeships work?

If you prefer a more practical style of learning, an apprenticeship or higher apprenticeship could be the ideal option for you. They enable you to learn on the job and gain nationally recognised qualifications at the same time. [Find out more about apprenticeships.](#)

Overview

Plumbing and Domestic Heating Technicians plan, select, install, service, commission and maintain all aspects of plumbing and heating systems.

Plumbing and domestic heating technicians can find themselves working inside or outside a property. Customer service skills and being tidy and respectful are important qualities as they can often find themselves working in customers' homes as well as on building sites.

We will work with you to identify opportunities for staff development across your business and then work together to agree and develop the most appropriate model for delivering training and development through apprenticeships.

What you'll learn

Modules will include:

- Health and Safety
- Core Plumbing Systems
- Electrical Components and Control Systems

- Plumbing Science and Processes
- Principles of Environmental Technology Systems
- Principles of fossil fuels
- Customer Service
- Communication

Assessments / Exams

To achieve the apprenticeship standard all components must be completed, including Functional skills at the required level if the apprentice doesn't have exemptions.

All apprenticeship standards include an end point assessment which is required to complete the standard.

Entry requirements

To join this apprenticeship programme, you will need English and Maths GCSEs at grade 4 (C) or above.

What this apprenticeship leads to

Upon successful completion of the Plumbing and Domestic Heating Technician programme learners can choose to continue their development through the Level 4 Apprenticeship.
