Overview

The aim of this qualification is to:

- inspire and enthuse learners to consider a career in the Information and Creative Technology sector
- give learners the opportunity to gain broad knowledge and understanding of, and develop skills in, the Information and Creative Technology sector
- support progression to specialised Level 3 qualifications in Information and Creative Technology, or to an Apprenticeship
- give learners the potential opportunity, in due course, to enter employment in a wide range of job roles.

What you'll learn

Mandatory/Core Units:

- The Online World
- Technology Systems
- A Digital Portfolio

Optional Specialist Units:

- Spreadsheet Development
- Computer Networks
- Website Development
- Installing and Maintaining Computer Hardware
- Multimedia Products Development

Note: *The optional units are subject to change.*

Assessments / Exams

The course is assessed by external exams for the core units (The Online World, Technology Systems) and the rest of the units are internally assessed by assignments using a set of work-related real-life case studies and practical demonstrations.

A typical week

Timetable for this course is 3 full days a week. As a full-time student, you will follow a study programme consisting of a vocational extended certificate, maths and English, work experience and a tutorial.

Entry requirements

You will need to have GCSE Maths, English Language and two additional subjects at grade 3 (D) or above.

As part of the application process you will also be asked to explain why you want to study this course, so that we can ensure any course offer made aligns to your career goals.

What this course leads to

On successful completion of the course, you can progress onto:

- Level 3 Computing
- Level 3 T Levels
- Apprenticeship
- Employment
