Overview

This GCSE course will support those that do not currently have the relevant qualification to be able to join university or a college course.

What you'll learn

The GCSE in Combined Science should enable learners to:

- develop scientific knowledge and conceptual understanding through the specific disciplines of Biology, Chemistry and Physics.
- develop and learn to apply observational, practical, modelling, enquiry and problem-solving skills in the laboratory, in the field and in other learning environments.
- develop the skills, knowledge and understanding of working scientifically. Students must carry out all 18 of the mandatory core practical.

Assessments / Exams

You will be assessed through written exams, at the end of the academic year.

Entry requirements

Previously studied Biology, Chemistry and Physics at Key Stage 3 or achieved GCSE grade 3-4

Professional registration links

Learners can progress from this qualification to:

- A-level for example in Biology, Chemistry and/or Physics
- Level 3 vocational qualifications, for example, BTEC Level 3 in Applied Science, Level 3 HSC
- employment, for example in a science-based industry where an Apprenticeship may be available.

Also HE alongside their vocational course
