Overview

CompTIA Security+ is a global certification that validates the baseline skills necessary to perform core security functions and this course is great if you're looking to pursue an IT security career.

What you'll learn

This course establishes the core knowledge required of any cybersecurity role and is a great option for those looking for a career in cybersecurity jobs. Security+ incorporates best practices in hands-on troubleshooting, ensuring candidates have practical security problem-solving skills required to:

- Assess the security posture of an enterprise environment and recommend and implement appropriate security solutions
- Monitor and secure hybrid environments, including cloud, mobile, and IoT
- Operate with an awareness of applicable laws and policies, including principles of governance, risk, and compliance
- Identify, analyse, and respond to security events and incidents

Assessments / Exams

To achieve the CompTIA Security+ certification, you are required to register and complete the CompTIA Security+ Exam.

For the latest exam details and costs, please refer to the CompTIA certification site.

Entry requirements

It is recommended that you have experience in CompTIA Network+ and two years of experience in IT administration with a security focus.

What this course leads to

Upon successful completion of this course, you will receive a Certificate of Completion. Additionally, you will have the opportunity to pursue and acquire Industry Badges at no cost.
