Overview

This course will learn how to install, test and maintain electrical systems safely and efficiently while gaining the theoretical knowledge and practical experience required to progress to advanced study or an electrical Apprenticeship.

What you'll learn

On this course, you will learn:

- Health and safety in building services engineering
- Electrical installation theory and technology
- Electrical installation methods, procedures and requirements
- Practical craft skills in electrical installation
- Electrical science and principles

Assessments / Exams

You will be assessed through a combination of written tests, practical assignments and online exams.

Entry requirements

You will need to have four GCSEs at Grade 4 or above in English, Maths and two other subjects.

What this course leads to

On successful completion of this course, you will be able to progress onto a Level 3 Electrical Installation (Building & Structures) course.
