

Level 3

3D Design UAL Foundation Diploma

UAL Foundation Diploma

Duration

1 year

Location

Rush Green Campus

Starting

Sept 2025

Age

Adult 19+

Careers

Art & Design
3D Design

Course fees per year

ADULT 19+

£5,580

The above fees include tuition and exam fees.

You may be eligible for an Advanced Learner Loan to help with the course fees. Contact us to discuss what Financial support is available.

Overview

The UAL Foundation in 3D Design is a comprehensive 1-year course that provides you with the opportunity to explore a variety of art and design disciplines.

Throughout the course, you will experiment with different materials, methods, and approaches, enabling you to build a strong portfolio of work. With real 'live' project briefs, work experience, and potential placements in European cities, this three-term programme is designed to prepare you for further education or entry into the 3D Design industry.

What you'll learn

During this course, you will cover specialist areas within 3D Design, including:

- Architecture
- Interior Design
- Product Design
- CAD Software Skills
- Three-Dimensional Visual Language

You will also have the chance to apply your learning to real 'live' project briefs within these specialist areas, allowing you to gain practical experience and valuable industry insights.

Assessments / Exams

The UAL Foundation in 3D Design is assessed entirely through coursework. Regular assessments will be conducted by your course team and external examiners, ensuring that you receive comprehensive feedback on your progress. Your final grade will reflect your ability to apply the skills and knowledge gained throughout the course.

What this course leads to

Upon completing the UAL Foundation in 3D Design, you will be equipped with the confidence and skills necessary to enter the 3D Design industry. Whether you choose to continue your education with a degree programme in Higher Education or pursue employment, internships, or apprenticeships, this course provides a solid foundation for your future in 3D Design.
