Overview

The Level 2 City and Guilds Extended Technical Occupational Entry in Light Vehicle Service and Maintenance is designed to prepare you for real work in today's motor industry.

This qualification is fully aligned with the Autocare Technician standard, which means what you learn reflects real jobs, real workshops and real employer expectations.

You'll develop practical, hands-on skills that employers and apprenticeships are looking for, helping you feel confident that your training is relevant, up to date and industry approved. This course is focused on getting you job-ready, not just gaining a qualification.

What you'll learn

Throughout this course, you'll learn the same skills used in modern automotive workplaces. You'll develop practical experience in servicing, maintenance and inspection, alongside the knowledge needed to understand how vehicles operate and how the industry works.

You'll build confidence in customer service, communication and sales principles, as well as understanding stock control procedures used in workshops. You'll also develop technical knowledge across a range of vehicle systems, including

chassis, propulsion systems and electrical components.

The course also helps you understand sustainability, health and safety, and the wider automotive industry, giving you a clear picture of career opportunities available to you.

You'll study a range of units designed to reflect real workplace tasks and responsibilities, including:

- Health and safety and sustainability in the automotive environment
- Customer service, sales principles and communication
- Stock control procedures
- Light vehicle chassis systems
- Service, maintenance and inspection
- Vehicle propulsion: internal combustion engine
- Vehicle propulsion: alternative fuel systems
- Electrical systems and components
- The automotive industry and career pathways

Assessments / Exams

You'll be assessed through a combination of coursework, practical assessments and exams, allowing you to demonstrate both your knowledge and hands-on skills.

Entry requirements

You will need to have GCSE Maths, English Language and two additional subjects at grade 3 (D) or above.

As part of the application process you will also be asked to explain why you want to study this course, so that we can ensure any course offer made aligns to your career goals.

What this course leads to

On successful completion you'll be ready to progress into employment or an automotive apprenticeship. The skills and knowledge you gain will support your next step into the motor industry and help you move forward into further training or work-based learning.
